

# HYDRANT AND MAIN FLUSHING SCHEDULE

The Evansville Water & Light will be flushing water mains starting **Monday, August 31 through Friday, September 11th**. Flushing is done to check hydrants and flush sediments from the water mains. You may experience some dark water when we flush the mains in your neighborhood. To prevent this, it is best not to run water when we are flushing in your area. If you do experience dark water please run your cold water tap until it runs clear. **Thank You!**
